LIFE SAVING RULES

Life Saving Rules were developed following a review of serious injuries and high potential incidents that have occurred in the businesses and across the industries we work in. These rules must be complied with at all times. They underline our commitment to Safety and aim to ensure lives are protected. If you have any questions, speak to your supervisor or a member of the QHSE team.

STOP UNSAFE WORK

Stop and always intervene to correct an unsafe act or condition.

SAFE DRIVING

Drive safe, roadworthy vehicles, according to the conditions, observe speed limit and wear seat belts.

FITNESS FOR WORK

Always attend work fit and free from the effects of fatigue, drugs and alcohol.

MACHINERY SAFETY

Always ensure that safety protection devices provided with plant / equipment (safety valves, guards, interlocks or barricades) are operational prior to commencing work.

TRAVEL TO HIGH RISK COUNTRIES

Ensure a travel risk assessment has been completed before travelling to high risk regions.

WORKING AT HEIGHTS

Protect yourself against a fall greater than 1.2 meters.

OVERHEAD LIFTING OPERATIONS

Plan all lifts (e.g. cranes, hoists, etc.) before commencing, and do not work under suspended loads.

TRAFFIC & PEDESTRIAN MANAGEMENT

Staff and drivers must be aware of the need for the segregation of pedestrians from vehicle movement.

ENERGY ISOLATION (LOCK OUT TAG OUT)

Only qualified persons are to work on electrical equipment or installations. Always isolate or lock out energized equipment before commencing work on it.

HAZARDOUS CHEMICALS/ SUBSTANCES

All staff need to be aware of chemicals / substances and strictly adhere to all applicable control measures, including safe handling, storage, and wearing appropriate PPE.

SAFE WORK PERMITS & SITE RULES

Always obey site rules and work with a valid work permit where required.
